Round Table Zambia (RTZ) had a Joint Induction Dinner for the incoming Area Two Chairmen. During the same dinner, the **MOU between 41 Club and RTZ** was signed in line with the guidelines given at the last AGM.

## What after tabling... After 40... How do we continue contributing?

We all know that, we have a robust age rule of 40 in India, for a Tabler to retire, after that one is out of active tabling life. Louis Marchesi's vision has translated today into this **"best young man's club"** in the world. This wonderful organization infuses such great enthusiasm & energy into one's life that it refuses to dry out after retiring.

Then, what do we do? How do we keep contributing to the good of the society & also at the same time keep meeting the friends, with a purpose, to serve the society & still have fun. How will we be remembered after we are gone, for our contribution in all facets of tabling, and how do we help the table grow? How do we continue to adopt what we have learnt, adapt to this new beginning & improve in our social life and keep the doors open to new friends?

Broadly speaking, a Tabler goes through three phases of **'Tabling Lifecycle'**. Firstly is the induction phase/period. Then after a few months/years he is the active phase, then lastly a leadership role as a member of head-board and/or chairman of a table. So, when a Tabler leaves tabling, mostly he is on the upswing. There are still harbored aspirations that he feels are yet to materialize. There after he may or may-not be Honorary Tabler. This immediate phase (two years, after retirement) is very translucent period. In my tabling life of past 9+ years, very lately I have seen one associate organization with the same Vision, becoming a natural handholding Club with open doors; it is **"41 Club"**. Popularly it is known as the 41ers club.

41 Club is the more commonly used and shorter name for The Association of Ex-Round Tablers/ Clubs a social networking organization for men aged over 40 who are also former members of Round Table. Thus, 41 Club forms part of the Round Table Family of clubs, together with Round Table, Ladies Circle and Tangent. Their motto is **"May the Hinges of Friendship never rust"**

The Aims & Objects of '41 Clubs' of India are crystal clear:

1. To promote the bonds of friendship established in Round Table.
2. To promote a National forum for meeting and keeping in touch with members.
3. To Promote a forum for 41 Club Children to develop International bonds and friendship.
4. To Promote International Fellowship and Friendship.

What I would like to emphasize here, is there is still this "41 Club" a platform available for past Tablers to keep contributing. To do social good, and have a voice, one needs a group of people, a platform to launch upon.

What we as Tablers should do?

We should interact more actively and consciously with "41 Club" during our tabling years. We must attend their AGM, in full strength. We should make it a point to have at-least one business meet, one joint-project (of any scale) & one joint-social during every tabling year. This will create a bridge, between the two wonderful organizations, and help in smoother transition from a Tabler to a productive 41er...

This fusion, of an energetic outgoing Tabler, with the experience & resourceful 41er's will be a triumphant formula for more aspirations to be fulfilled for life. Where in one can still take up leadership roles, at the same time boost/infuse more participation & energy into the 41er's Club.

Yours in Tabling,

**Tr. Satyajeeet Morey** FTE Twinning & IT – Convener

## "Sacrifice of the Pig"

Every year, in February, Club 41 Cimpulung Muscel No.5, **ROMANIA**, organizes the "Sacrifice of the Pig" ceremony/Pig Fest = Pomana Porcului, during which, those who want may get dressed in a traditional suit representing the region where their club originates.

In some of the photos you may see Stefan Lupu (from Club 41 Brasov no.3), dressed in a suit of Dacian (our ancestors) origin, bearing a wolf's head (their fighting symbol) in his hand. We dressed Dominico in a "suman" (traditional woolen winter coat), while Claudiu and I wear traditional costumes from Bucovina (the North-Eastern region of Romania, a very beautiful historical area, with plenty of touristic attractions, as 500-600 years old castles and monasteries).

During the ceremony, specialized cooks prepare a lot of traditional pork dishes, some of which are smoked, people drink boiling tzuica (plum brandy) and wine, and participate in funny sports competitions: cracking wood with an ax, cutting wood with a saw, preparing sausages, carrying an egg in a spoon kept with the teeth, rope pulling (the tug-of-war).

In tug of war, each team is composed of 4 competitors. The teams pull at opposite ends of the rope. The winner is the team which drags the other over a central line.

Each club had a team in the competition, the additional teams being International 1 and International 2, both composed of Romanians and foreigners. The winner was International 1 composed of Domenico Vannicola, Willy Zwygart (from Switzerland), Claudiu and I (from Romania). - **George Petrescu**
